

Pistoia Alliance Virtual Conference Week October 19-23, 2020

Collaborate to Innovate
Global Life Science Research
and Development

Register for this free conference at www.PistoiaAlliance.org

Hear From More Than 30 Industry Speakers

4 Keynote Speakers

Monday Keynote Speaker

Andrew Plump, President, Research & Development,
Takeda Pharmaceutical Company

Session: Enabling Collaborative Innovation in Life
Science R&D

Tuesday Keynote Speaker

Merdad Parsey, EVP & CMO, Gilead Sciences

Session: Challenges of Clinical Trial Design in a
Pandemic

Wednesday Keynote Speaker

Jay Bradner, President, Novartis Institute for Biomedical
Research

Session: Open Science for Next-Generation
Therapeutics

Thursday Keynote Speaker

Paul Sonnier, Innovation and Growth Leader, PA
Consulting

Session: The Fourth Wave: Digital Health

5 Panel Discussions

Monday: Fireside Chat: How Can
Digitised Data Improve Patient Outcomes
and Enable Drug Discovery?

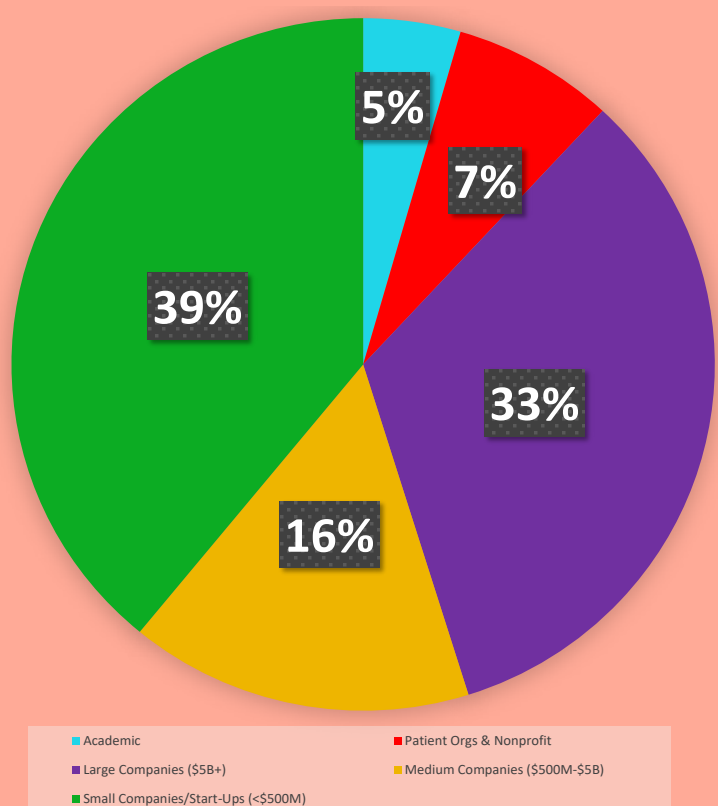

Wednesday: R&D Leaders Roundtable:
Enabling Collaborative Research –
Learnings from COVID

Wednesday: In Silico Drug Discovery
and Development

Thursday: Where Will Patient Centricity
Ultimately Take Us?

Thursday: The Digital Placebo is Alive,
Real But Not Considered

Opportunities to Network With Life Science & Pharma Professionals

Conference Registrations by Company Type/Size

14 : 20 Top Global Pharma Companies Are Pistoia Members

abbvie

AstraZeneca

Biogen

Bristol-Myers Squibb

Lilly

gsk
GlaxoSmithKline

MERCK

NOVARTIS

novo nordisk

Pfizer

Roche

SANOFI

Takeda

Explore Collaborative Innovation in R&D

7 Featured Sessions

Manuel Guzman, President, CAS

Session: R&D Leaders Roundtable:
Enabling Collaborative Research –
Learnings from COVID

Shweta Singh Maniar, Life Sciences
Leader, Healthcare & Life Sciences,
Google Cloud

Session: Accelerating Innovation in
Research

Kevin Hayes, Global Lead, Data
Science and Informatics Strategy and
Communication, Corteva Agriscience

Session: Corteva COVID Testing: From
Inception to Production in Three Weeks -
a Benchmarking for Lab Automation Use Case

Vasu Rangadass, President &
CEO, L7 Informatics

Session: Lab of the Future Is Now:
Addressing Digitalization of the Lab

Thibault Geoul, Senior Director
Discovery Biology & Predictive Risk
Management, Elsevier

Session: In Silico Drug Discovery and
Development

Yugal Sharma, Senior Director,
Solutions, CAS

Session: Describing Chemistry to
Algorithms: Why Scientific Expertise
Improves AI Accuracy

Trey Miller, Product Manager,
Benchling

Session: Corteva COVID Testing:
From Inception to Production in
Three Weeks - a Benchmarking for Lab
Automation Use Case

Chris Moore, President, Veeva Europe

Session: The Time for a Platform
Approach to Accelerate R&D

Jens Hoefkens, Industry Principal
Director, Accenture, INTIENT Research

Session: Accelerating Innovation in
Research

6 Project Updates

**Blocksent: A Multi-
Pharma Clinical Trial
Informed Consent
Solution Based on
Blockchain**

**Centre of Excellence
in Artificial
Intelligence &
Machine Learning**

**FAIR Implementation
in Clinical
Healthcare and the
FAIR Toolkit**

**Hierarchical Editing
Language for
Macromolecules
(HELM)**

**Quality Generation
and Ethical Use of
Digital Health Data
in Clinical Studies**

**Semantic Enrichment
of eLN Data Project
(SEED)**
