

CSCS Expert Community

Improving the understanding of controlled substance legislation around the world

CSC Expert Community lead – Jessie Bin Song

Shipping Expert Community Lead – Jack DeCicco

CSCS Expert Community manager – Birthe Nielsen

CSCS Expert Community

The Controlled Substance & Shipping Expert Communities provides a forum for industry compliance officers and compound managers to share best practice in controlled substance compliance and cross-boarder shipping legislation worldwide, and update their awareness of new legislation. Our members include major pharma and specialist software providers.

How does the group work?

Whole team meetings with invited speakers are held on-line quarterly. Members are widely spread across Europe, North America and China. Extra meetings are occasionally called if needed.

The steering committee is made up of a single representative from each organisation that contributes financially. It meets quarterly, to steer the group's activities and hold more detailed discussions. A contribution of \$7K is requested for members to be part of the steering committee.

Jack DeCicco (GSK) and Jessie Bin Song (Merck) are the chairs of the groups and oversees the strategy.

Birthe Nielsen (Pistoia Alliance) is the coordinator.
